***Election/Restrictions***

Claim 29 and 39-42 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 17, 2008. The applicant indicated that claim 29 has been withdrawn from consideration as being drawn to a nonelected species therefore the ***examiner has also withdrawn claims 30-36 since these claims are dependent from withdrawn claim 29 therefore being also withdrawn.***

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 25 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 recites the limitation "the bracket" in line 2. There is insufficient antecedent basis for this limitation in the claim.

The claims have been rejected under 35 U.S.C. 112 for the above reasons. Please note that the Examiner may not have pointed out each and every example of indefiniteness. The applicant is required to review all the claim language to make sure the claimed invention is clear and definite.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual

Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 24-28, 37, and 38 are rejected, as best understood, under 35 U.S.C. 102(e) as being anticipated by Trautman et al. (Trautman) 6,942,131. Trautman discloses a drink container holding apparatus including object attachment device or bracket (40) provided with at least two parts (46 and 48) having a recess (47), fastening recess (50), fastening means (54), a holder engagement means/entry slot (42), drink container holder (10) having a ring and frame and including attachment device engagement means (26) is separable from the holder and includes a projection (near 32), receptacle (47).

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The prior art discloses conventional drink container holding apparatuses.
